

Mannem Madhu Sudhan

RESUME SUMMARY

I am a Java Full Stack Developer with expertise in front-end and back-end technologies. I have undergone intensive training in Java programming, Spring framework, Hibernate, HTML, CSS, and JavaScript. My goal is to contribute to modern web development projects using my skills in PLSQL, SQL, HTML, CSS, JavaScript, and Java. I am fluent in both English and Telugu.

PROJECTS

Responsive Web Design | January 2024 - January 2024

- FreeCodeCamp Responsive Web Design Projects

The Responsive Web Design projects on FreeCodeCamp serve as a hands-on way to showcase your skills in building websites that seamlessly adjust and render across different devices, including desktops, tablets, and mobile phones. These projects challenge you to implement responsive design techniques, ensuring an optimal user experience regardless of the viewing device.

Tribute Page: Create a tribute page that pays homage to a person or subject of your choice. Focus on structuring content and utilizing CSS to make it responsive across various screen sizes.

Survey Form: Design and code a responsive survey form. Implement form elements and utilize CSS to ensure the form looks good and functions well on different devices.

Product Landing Page: Craft a product landing page that showcases a product or service. Apply responsive design principles to make the page visually appealing and user-friendly on all screen sizes.

the calculator | February 2023 - Present

- Front end technologies.

HTML, CSS, javascript on jspider

Facebook signup page and digital clock | November 2022 - Present

- by using technologies html , css , javascript

WORK EXPERIENCE

Jspiders | November 2022 - December 2023

- Java Full Stack Developer: As a Java Full Stack Developer undergoing training facilitated by Jspiders Institute, you will embark on an intensive learning journey focused on mastering both front-end and back-end technologies essential for modern web development. This program will cover a range of topics including but not limited to Java programming, Spring framework, Hibernate, HTML, CSS, JavaScript, and various database systems.
